Introducing the new Users list experience

We've redesigned the Users list experience to make it easier to use. [Let us know what you think.](#)

IAM > Users

Users (0) Info

An IAM user is an identity with long-term credentials that is used to interact with AWS in an account.

Find users by username or access key

Refresh

Add users

	User name	Groups	Last activity	MFA	Password age	Active key age
No resources to display						

User name\*

TestUser

Add another user

Select AWS access type

Select how these users will primarily access AWS. If you choose only programmatic access, it does NOT prevent users from accessing the console using an assumed role. Access keys and autogenerated passwords are provided in the last step. [Learn more](#)

Select AWS credential type\*

☒ Access key - Programmatic access

Enables an **access key ID** and **secret access key** for the AWS API, CLI, SDK, and other development tools.

☒ Password - AWS Management Console access

Enables a **password** that allows users to sign-in to the AWS Management Console.

Console password\*

☐ Autogenerated password

☒ Custom password

\*\*\*\*\*

Show password

Require password reset

☒ User must create a new password at next sign-in

Users automatically get the **IAMUserChangePassword** policy to allow them to change their own password.

### Review

Review your choices. After you create the user, you can view and download the autogenerated password and access key.

#### User details

User name	TestUser
AWS access type	Programmatic access and AWS Management Console access
Console password type	Custom
Require password reset	Yes
Permissions boundary	Permissions boundary is not set

#### Permissions summary

The following policies will be attached to the user shown above.

Type	Name
Managed policy	AmazonS3FullAccess
Managed policy	IAMUserChangePassword

Cancel Previous Create user

## Add user

### Success

You successfully created the users shown below. You can view and download user security credentials. You can also email users instructions for signing in to the AWS Management Console. This is the last time these credentials will be available to download. However, you can create new credentials at any time.

Users with AWS Management Console access can sign-in at: <https://137499223942.signin.aws.amazon.com/console>
